COMMITTEE OF CONSULTING EDITORS.

WALTER B. CANNON, M.D.
HARVEY CUSHING, M.D.
DAVID L. EDSALL, M.D.
REID HUNT, M.D.
ROGER I. LEE, M.D.

ALLAN J. McLAUGHLIN, M.D.
ROBERT B. OSGOOD, M.D.
MILTON J. ROSENAU, M.D.
EDWARD C. STREETER, M.D.
E. W. TAYLOR, M.D.

ADVISORY COMMITTEE.

EDWARD C. STREETER, M.D.
WALTER P. BOWERS, M.D.
ALGERNON COOLIDGE, M.D.
HOMER GAGE, M.D.
JOEL E. GOLDTHWAIT, M.D.
LYMAN A. JONES, M.D.
ROBERT B. OSGOOD, M.D.
HUGH WILLIAMS, M.D.
ALFRED WORCESTER, M.D.

ABSTRACTORS OF CURRENT
LITERATURE.

JOHN BRYANT, M.D.
LAURENCE D. CHAPIN, M.D.
R. S. EUSTIS, M.D.
CHANNING FROTHINGHAM, JR., M.D.
TORR W. HARMER, M.D.
JOHN B. HAWES, 2d, M.D.
ROGER I. LEE, M.D.
JAMES H. MEANS, M.D.
RICHARD H. MILLER, M.D.
FRANCIS W. PALFREY, M.D.
A. W. REGGIO, M.D.
EDWARD H. RISLEY, M.D.
GEORGE G. SMITH, M.D.
LESLEY H. SPOONER, M.D.
WILDER TILESTON, M.D.
EDWARD L. YOUNG, JR., M.D.

REPORTERS OF PROGRESS.

A. E. AUSTIN, M.D.
JOHN BAPT BLAKE, M.D.,
JOHN T. BOWEN, M.D.
EDMUND W. CLAP, M.D.
ALGERNON COOLIDGE, M.D.
ROBERT L. DeNORMANDIE, M.D.
ROGER I. LEE, M.D.
JOHN LOVETT MORSE, M.D.
H. P. MOSHER, M.D.
ROBERT B. OSGOOD, M.D.
STEPHEN RUSHMORE, M.D.
HENRY R. STEDMAN, M.D.
JOHN J. THOMAS, M.D.
PAUL THORNDIKE, M.D.

INDEX TO VOLUME CLXXIV.

AUTHORS.

A

- Abbot, E. S. Preventable forms of mental disease and how to prevent them, 555.
 Allen, E. M. (Abstracted article) Investigative and scientific phases of the diabetic question with their probable relations to practical problems of clinical medicine, 519.
 Anderson, V. V. The alcoholic as seen in court, 492.
 Austin, A. E. Stimulation of esophageal stenosis by extensive carcinosis of the lesser curvature of the stomach, 44.
 Ayer, J. B. Cerebral syphilis: A method of treatment by prolonged intra-spinal injection of serum under high pressure, 614.

B

- Barney, J. D. The management of gonorrhea, 740.
 Bartlett, P. C. and Hawes, J. B., 24. Progress in tuberculosis, 353.
 Baumann, L. and Stevens, F. Report of a case of chronic nephritis with uremia, 276.
 Benedict, F. G. and Tompkins, E. M. Respiratory exchange with a description of a respiration apparatus for clinical use, 357, 391, 939.
 Benet, G., and Rogers, O. F. Bacteriological work at the American Ambulance, 418.
 Blumer, G. A note on the simulation of diabetes mellitus, 48.
 Boothby, W. M. Gunshot wounds of the thorax, 378.
 Bowen, J. T. Progress in dermatology, 535, 577.
 Brant, A. Anesthesia in obstetrics, 468.
 Briggs, L. V. How the state provides for its mentally ill, 703.
 Brigham, F. G., Joslin, E. P. and Horner, A. A. An analysis of fourteen cases of diabetes mellitus unsuccessfully treated by fasting, 371, 425.
 Brown, L. T. An unusual exostosis of the scapula, 652.
 Brown, M. M. Observations on the diagnosis and treatment of diabetes, 317.
 Bryant, J. The carnivorous and herbivorous types in man: A reply to Dr. Hooton, 412.
 Buchala, C. H., et al. Ninth report of progress in orthopaedic surgery, 17, 53; Tenth report of progress in orthopaedic surgery, 615, 652.

C

- Cabot, H., and Crabtree, E. G. A classification of renal infection, with particular reference to treatment, 730.
 Cates, B. B. Spina-bifida, 420.
 Cecconi, J. A. Notes on the recent epidemic of influenza, 423; An interesting contact case of diphtheria, 828.
 Clap, E. W. Recent progress in ophthalmology, 58.
 Cotton, F. J. Disinfection of septic joints, 779; Diagnosis of periosteal sarcoma with the x-ray, 946.
 Coates, W. P. Dupuytren and appendicitis, 405.
 Courtney, J. W. On medical testimony, 1; Concerning the raison d'être of the term "involution" as applied to melancholia, 416.
 Crabtree, E. G. and Cabot, H. A classification of renal infection, with particular reference to treatment, 730.
 Cronin, H. J. The fallacies of group treatment, 679; The physician and the prevention of industrial accidents, 870.
 Cusackham, A. R. Results of open-air treatment of pneumonia in children. An analysis of 1500 cases of lobar pneumonia from the records of the Children's Hospital, Boston, 753.
 Cushing, H. Headache, 325.
 Cutler, E. C. Sir James Paget and Paget's disease, 187; Neurological surgery in a war hospital, 305.

D

- Dana, H. W. The problem of tuberculous infection in children, 755.
 Dauforth, W. S., et al. Ninth report of progress in orthopaedic surgery, 17, 53; Tenth report of progress in orthopaedic surgery, 615, 652.
 Day, H. F. Bridging gap in out-patient service, 314.
 DeNormandie, R. Report on obstetrics, 717.
 Donohue, F. D. The injured employee and the workmen's compensation law. Results of impartial examinations, 76.

E

- Eastman, A. C. Pediatrics as a specialty in the smaller cities, 739.
 Edsall, D. L. The annual discourse: Movements in medicine, 391.
 Emmens, A. E. Industrial medical supervision, 495.

F

- Fallon, M. F. Some present-day problems in surgery, 407.
 Fernald, G. G. Classification of reformatory prisoners, 261.
 Field, M. T. Acute perforation of ulcers of the stomach and duodenum, with case reports, 829.
 FitzSimmons, H. J. A table for the reduction of dislocation of the hip and operative treatment of the femur and hip joint, 714.
 Frost, H. P. After-care of mental patients, 528.

G

- Garrison, F. H. A brief history of gastric intubation, 267.
 Gay, G. W. The truth about smallpox and vaccination, 500.
 Giddings, H. G. Post-operative treatment, 832.
 Gilpatrick, R. H. Nephropexy, 825.
 Goldthwait, J. E. Are there different anatomic types? A reply to Dr. Hooton, 160.
 Green, C. M. Caesarean section: A consideration of indications, technique and time of operating, 441.
 Green, Robert M. Further experience in the treatment of intracranial hemorrhage in the newborn, 997.
 Greenough, R. B., and Viscent, B. Gunshot wounds of the soft parts, 153.
 Greenough, R. B., Cogswell, R. B., and Viscent, B. Gunshot fractures of the extremities, 37.
 Gregg, D. Physiological considerations in the differential diagnosis of neurasthenic, hysterical and psychotic symptoms, 275.

H

- Haines, E. L. Occupation as a remedial factor in hospitals for the mentally sick, 609.
 Hawes, J. B., 24. Five years' progress in the diagnosis and treatment of consumption by Massachusetts physicians, 775.
 Hawes, J. B., 24, and Bartlett, P. C. Progress in tuberculosis, 353.
 Herald, J. The treatment of headache, 15.
 Hill, L. W. Fermentative diarrhea in infants (carbohydrate form), 487.
 Hinsdale, G. The choice of a climate in cases of Bright's disease and nephritis, 638.
 Holmes, G. W. The roentgenoscopic examination of the stomach and duodenum. A report based on the findings in 730 cases examined during the year 1914, 531.
 Hooton, A. Some anthropological comments upon the so-called "herbivorous" and "carnivorous" types of man, 127.
 Hooton, A. The occurrence of the Wassermann reaction among hospital patients, 194.
 Horner, A. A., Joslin, E. P., and Brigham, F. G. An analysis of fourteen cases of diabetes mellitus unsuccessfully treated by fasting, 371, 425.
 Howland, C. A. Pellaagra: A review of the subject with report of a case, 563.
 Hubbard, J. C. Chronic inversion of the uterus: Report of a case, 714.
 Hunt, E. L. Intra-spinal injections of bichloride of mercury, 758.

I

- Irving, F. C. Nitrous oxide in obstetrics, 462.

J

- Janeway, Theodore C. The etiology of the diseases of the circulatory system, 925.
 Johnson, F. W. Pregnancy and labor following resection of ovary, 716.
 Joslin, E. P., Brigham, F. G., and Horner, A. A. An analysis of fourteen cases of diabetes mellitus unsuccessfully treated by fasting, 371, 425.
 Judd, E. S. Cholecystitis: changes produced by the removal of the gall-bladder, 815.

- Young, E. R. A simple after-treatment for perineal wounds. 651.

SUBJECTS.

- A**
- Abnormal Parent.** Arthur H. Ruggles, M.D., 350.
- Abcess of the tongue with report of case,** Joseph Frenn, M.D., 161.
- Acid Auto-intoxication in infancy and childhood,** John Lovett Morse, M.D., 568.
- Acidosis, influenza and pneumonia,** 62, 161.
- After-Care,** 832.
- Alcohol in relation to mental disease,** A. J. Rosanoff, M.D., 611.
- Alcoholic as seen in court,** Victor V. Anderson, M.D., 492, 515.
- Allen treatment of diabetes, responsibility for diabetic coma, 140; Investigative and scientific phases of the diabetic question,** F. M. Allen, M.D., 319. (See Diabetes.)
- Amenorrhea.** See progress in gynecology, Stephen Rushmore, M.D., 321.
- American Ambulance.** Bacteriological work at, Orville F. Rogers, Jr., M.D., and George Benet, M.D., 418.
- Gunshot wounds of the thorax,** Walter M. Boothby, M.D., 378; Report of work at, R. B. Greenough, M.D., et al., 37. Orthopaedic work in a war hospital, Robert B. Osgood, M.D., 109. Gunshot wounds of the soft parts, Beth Vincent, M.D., and R. B. Greenough, M.D., 153. Gunshot fractures of the long bones, Channing C. Simmons, M.D., 226. Neurological surgery in a war hospital, Elliott C. Cutler, M.D., 305.
- American College of Surgeons,** adjournment of, 30.
- American Journal of Orthopedic Surgery,** 31.
- American Laryngological, Rhinological and Otolological Society,** Meeting of, 805.
- American Medical Association,** 913.
- Anatomic Types.** Are there different anatomic types? A reply to Dr. Hooton, Joel E. Goldswalt, M.D., 160; types in man, John Bryant, M.D., 412; comments upon, E. A. Hooton, Ph.D., 127.
- Anesthetics,** 411; anesthesia in obstetrics, Austin Brant, A.B., M.D., 458; nitrous oxide in obstetrics, 462.
- Aneurysm, false, of brachial artery,** D. Pearce Penhalow, M.D., 575; a case of traumatic femoral arteriovenous aneurysm, Edward A. Supple, M.D., 352.
- Announcement,** 29.
- Annual Discourse,** Massachusetts Medical Society, David L. Edsall, M.D., 591.
- Anti-Meningitis serum,** 547.
- Anti-Narcotic Law, Constitutionality of,** 96; see Harrison Narcotic Law.
- Anti-Vaccination legislation,** 514.
- Appendicitis,** 469.
- Army Dentists,** Status of, 435.
- Army Reorganization Bill.** Preparedness, 434; medical department, William O. Owen, 260; effect of war upon, 842. (See United States Army Medical Corps.)
- Asiatic Cholera,** Practical points in the prevention of, Surgeon Allan J. McLaughlin, 482.
- Atropia and dysmenorrhea, see progress in gynecology,** Stephen Rushmore, M.D., 321.
- Atwater, Dr. David Fisher,** 724.
- Axle, A non-fatal fracture of the,** Frederick W. O'Brien, M.D., 85.
- B**
- Backache, chronic,** Herman W. Marshall, M.D., 591.
- Blindness, from retrobulbar neuritis,** 790.
- Blood,** Robert Allen, M.D., 335.
- Bolles, William Palmer, M.D.,** 551.
- Book Reviews.** A text-book of the practice of medicine, James M. Anders, 801; Orthopaedic surgery, Edward H. Bradford, and Robert W. Lovett, 878; Physical diagnosis, Richard C. Cabot, 176; The obstetrical quiz for nurses, Hilda Elizabeth Carlson, 512; Diseases of infants and children, Henry Dwight Chapin, and G. R. Pisk, 28; Mothercraft, Sarah Comstock, 207; A mechanistic view of war and peace, George W. Crile, 287; Curschmann's text-book of nervous diseases, 513; Principles and practice of physical diagnosis, John C. De Costa, Jr., 768; Principles and practice of obstetrics, Joseph E. De Lee, 512; A manual of pharmacology, Walter E. Dixon, 174; The American Illustrated Medical Dictionary, W. A. Newman Dorland, 21; A treatise on the principles and practice of medicine, Arthur R. Edwards, 768; Record book for measured feeding, William R. Emerson, 95; Encyclopedia Medica, 59; Encyclopedia Medica, second edition, 139; The untroubled mind, Herbert J. Hall, 579; The starvation treatment of diabetes, Lewis Webb Hill, and Rena S. Eckman, 357; Cerebro-spinal fever, Thomas J. Horder, 25; A text-book of physiology for medical students and physicians, William H. Howell, 621; Peroral endoscopy and laryngeal surgery, Chevalier Jackson, 879; Publications from the Jefferson Medical College and Hospital, 139; Oxford medical publications, D. M. Macdonald, 209; Infant health, J. (Shawnet) Cameron MacMillan, 288; Physiological chemistry, Albert F. Mathews, 209; The treatment of acute infectious diseases, Frank Sherman Mearns, 878; The medical clinics of Chicago, 59, 288, 768; The practical medicine series, Charles L. Mix and others, 879; Diseases of nutrition and infant feeding, John Lovett Morse, 288; Pellagra, George M. Niles, 328; The practical medicine series, 174, 208; Syphilis as a modern problem, William Allen Fussey, 207; Sixteenth annual report of the State Board of Insanity of the Commonwealth of Massachusetts, 208; The operations of surgery, F. Rowlands, 228; Anatomy of the brain and spinal cord, Harris E. Santee, 544; A synopsis of medical treatment, George Cheever Shattuck, 288; The baby's first two years, Richard M. Smith, 328; Manual surgery, Francis T. Stewart, 557; Cancer, its study and prevention, Howard Canning Taylor, 138; An autobiography, Edward Livingston Trudeau, 433; Physiology of the amino acids, Frank P. Underhill, 879; Sexual impotence, Victor Vecchi, 801; Laboratory methods, B. G. R. Williams, and E. G. C. Williams, 357; Student's text-book of hygiene, W. James Wilson, 208.
- Boston Association for the Relief and Control of Tuberculosis,** meeting of Nov. 29, 1915, 282.
- Boston City Hospital,** 398; Alumni Association, 141; medical social work at, 246, 255.
- Boston Health Department** free Wassermann tests, 63.
- Boston Medical Library,** 141, 399, 806.
- Boston Public Schools.** Examination of children in, 770, 774; testing of vision and hearing, 445, 551.
- Boston Surgical Society,** 169.
- Botulism,** Important new data on, 546.
- Boylston medical prizes,** 478.
- Bread and vitamins,** 881.
- Bright's Disease and nephritis.** Choice of climate in cases of, Guy Hinsdale, M.D., 638.
- British Expeditionary Forces in France.** A sketch of the organization for the care and transportation of the sick and wounded in, Roger I. Lee, M.D., 192.
- Burrage, Miss Katherine,** Memorial of, James J. Putnam, M.D., 151.
- C**
- Carcinoma Section.** Modern indications for, John T. Williams, M.D., 150; a consideration of indications, technique and time of operating, Charles M. Green, M.D., 441; overdone, Foster S. Kellogg, M.D., 454.
- Campbell, Benjamin Franklin, M.D.,** 438.
- Cancer, Mortality from, in the Western Hemisphere,** 297; improving statistics in the United States, 218; lecture delivered at the Harvard Medical School, 394; see progress in gynecology, Stephen Rushmore, M.D., 327.
- Cardiacitis.** Stimulation of esophageal stenosis by, A. Everett Austin, M.D., 44.
- Cardiac Disease and nephritis,** treatment of, 101; an outline for the management of, from the out-patient department standpoint, Mark H. Wentworth, M.D., 79.
- Cardiac Enlargement,** George Cheever Shattuck, M.D., 384.
- Cardiac Outline.** Relation of dulness to, George Cheever Shattuck, M.D., 301.
- Cardiogenic Types.** Are there different anatomic types? J. E. Goldswalt, M.D., 160; some anthropological comments upon the so-called "herbivorous" and "carnivorous" types of man, E. A. Hooton, Ph.D., 137; carnivorous man: a reply to Dr. Hooton, John Bryant, M.D., 412.
- Cheever, David Williams, M.D.,** 32, 147; memorial resolutions, 217, 335.
- Chinese Students,** Pignet's standard, 329.

- Cheste, David, M.D.**, 664.
- Cholecystitis**, changes produced by the removal of the gall-bladder, Edward Starr Judd, M.D., 815.
- Cholecystostomy** vs. cholecystectomy, F. B. Lund, M.D., 305.
- Christian Science conspiracy**, 661.
- Chronic Nephritis**, Report of a case of, with uremia, L. Baumann, M.D., and F. Stevens, M.D., 276.
- Clinical and tuberculous**, 387.
- Classic Ritual** and the aseptic technic, 289.
- Communicable Diseases**, resume of, in Massachusetts for February, 1916, 404; field work of the State Department of Health, William W. Walcott, M.D., 327.
- Compulsory Industrial health insurance**, 32; see industrial health insurance.
- Conspicuous Elevation** of the scapula, Frank E. Peckham, M.D., 315.
- Congress of American Physicians and Surgeons**, meeting of, 805.
- Convalescent**, problem of, 914.
- Correspondence**. Too much asepsis, Lionel L. Albert, M.D., 700.
- The proposed American association of general practitioners, A. L. Benedict, M.D., 553.
- Drug patients** in Westboro State Hospital, Alice S. Cutler, M.D., 701; The last illness of Anne of Austria, W. P. C., 185; Coccygodynia as a manifestation of syphilis, 517; An early museum specimen of ruptured appendix, 107; Dupuytren and appendicitis, Wm. Pearce Coues, M.D., 405; An appreciation, J. W. Courtney, M.D., 698; Is the general practitioner incompetent to treat gonorrhea? Herbert J. Cronin, M.D., 853.
- A reminiscence of Dr. White, Robert A. Edes, M.D., 222; Napoleon's wounds, 313; Correction, Alfred Ela, 889.
- Surgeon of the "Mayflower"**, Thomas F. Harrington, M.D., 221; The study of internal secretions, Henry R. Harrower, M.D., 738.

ments upon the so-called "herbivorous" and "car-
nivorous" types of man, E. A. Hooton, Ph.D., 127.
(See Anatomic Types.)
Radium in treatment of cancer, 278.
Revised Pollen, a simple method of obtaining in
large quantities, R. F. Wodehouse, 430.
Railroad Trains, superheated, 293.
Reformatory Prisoners, classification of, Guy G. Fer-
nald, M.D., 261.
Renal Function, the pituitary body and, Ketil Motz-
feldt, M.D., 444.
Renal Infection, a classification of, with particular
reference to treatment, Hugh Cabot, M.D., and E.
Granville Crabtree, M.D., 780.
Respiration Calorimeter in clinical medicine (ab-
stract), Eugene F. DuBois, 396.
Respiratory Exchange, with a description of a respiration
apparatus for clinical use, Francis G. Benedict,
M.D., and Edna H. Tompkins, 857, 891, 939.
Respiratory Mechanism in pneumonia, L. H. Newburgh,
M.D., J. H. Means, M.D., and W. T. Porter, M.D., 464.
Retrobulbar Neuritis, loss of sight from, 790.
Rhineworm, the problem of in children, E. L. Oliver,
M.D., 751; of the hands and feet, J. E. Lane, M.D.,
271.
Rodman, Dr., death of, 400.
Roentgen Ray, the present status of gallstone diagno-
sis by, Frederick W. O'Brien, M.D., 309; the roentgeno-
scopic examination of the stomach and duodenum;
a report based on the findings in 730 cases examined
during the year 1914, George W. Holmes, M.D., 531.
(See X-ray.)
Rowe, George Howard Malcolm, M.D., 217; memorial
resolutions, 335, 551.
Rush Society Lecture, Investigative and scientific
phases of the diabetic question, Frederick M. Allen,
M.D., 319.
Russell, Thomas Hubbard, M.D., 255.

S

Sacro-iliac Strain following symphysiotomy, Charles
F. Painter, M.D., 910.
St. Bartholomew's Hospital, 581.
Scapula, an unusual exostosis of, Lloyd T. Brown, M.D.,
652; congenital elevation of the scapula. A new op-
eration? Cubitus varus. Report of a case, Frank E.
Peckham, M.D., 315.
Scarlet Fever, a noteworthy scientific medical discov-
ery, 545.
School Children, examination of, in Boston, 770, 774.
Scopolamine, response of the surviving uterus to, 721.
(See Anesthesia in Obstetrics, 458.)

Septic Joints, disinfection of, F. J. Cotton, M.D., 779.
Shattuck Lecture. The etiology of the diseases of the
circulatory system, Theodore C. Janeway, M.D., 925.

Spina-Bilda, Benjamin B. Cates, M.D., 420.
State and Federal Narcotic Laws, 949.
State Board of Insanity, proposed reorganization of,
661.
Statistics, university registration, 211; New York
City's population and the state census, 910.
Steele, see progress in gynecology, Stephen Rush-
more, M.D., 324.
Stomach. A brief history of gastric intubation, Field-
ing H. Garrison, M.D., 267; cancer and ulcer of, 411,
529.
Streptococcal Infection simulating diphtheria, D. M.
Lewis, M.D., 837.
Strong, Dr., on the plagues of man, 365.
Surgery, some present-day problems in, Michael F.
Fallon, M.D., 407; neurological, in a war hospital,
Elliott C. Cutler, M.D., 305.
Symphysiotomy, report of a case of sacro-iliac strain
following, Charles F. Painter, M.D., 910.
Syphilis, the treatment of, C. Morton Smith, M.D., 198;
treatment of central nervous system syphilis, J. V.
Chandler Walker, M.D., 195; the occurrence of the
Wassermann reaction among hospital patients, Al-
bert A. Hornor, M.D., 194; notes of a conference on
the medical and social aspects of syphilis of the
nervous system, 8, 50, 81; new views on an ancient
problem, 725; the relation of syphilis to mental dis-
ease, Samuel T. Orton, M.D., 525; cerebral syphilis:
a method of treatment by prolonged intra-spinal in-
jection of serum under high pressure, James B.
Ayer, M.D., 614; treatment by intra-spinal injections
of bichloride of mercury, Edward L. Hunt, M.D., 788;
Two cases of syphilis of the lung, Abner Post, M.D.,
876.

T

Thymol from horse-mint, 857.
Townsend, Joseph H., M.D., obituary notice, 149.
Transfusion, simplified methods of, Edward H. Risley,
M.D., 3; methods for testing donors for transfusion
of blood and consideration of factors influencing
agglutination and hemolysis, George R. Minot, M.D.,
867.
Tuberculosis, meeting of Boston Society for the Re-
lief and Control of, 282; legislation, 178; current
activities on, 732; predisposing causes of, 843; stand-
ardization of treatment, 624; the problem of tubercu-
lous infection in children, Harold W. Dana, M.D.,
755; benefit of physical examinations, 220; five years'
progress in the diagnosis and treatment of consump-
tion by Massachusetts physicians, John B. Hawes,
2d, M.D., 775; county care of tuberculars in Massa-
chusetts, 330; in city of Cincinnati, 887.
Trudeau School of Tuberculosis, 143; the Trudeau
Foundation, 726.
Typhoid Fever, decrease of, in California, 477.

U

- Ulcers**, acute perforation of, of the stomach and duodenum, with case reports, Martin T. Field, M.D., 329.
- Umbilical Hernia**, the end-results in seventy cases of, operated upon at the Massachusetts General Hospital, Channing C. Simmons, M.D., 342.
- United States Army Medical Corps**, some views concerning the, 358; how may you assist the medical department of the United States army, Major William O. Owen, M.C., 259; reorganization bills, 434.
- United States Death Rates** in 1914, 219, 439.
- United States Public Health Service**, 71.
- University** registration statistics, 211.
- Uremia**, report of a case of chronic nephritis with, L. Baumann, M.D., and F. Stevens, M.D., 276.
- Uterus**, chronic inversion of, Report of a case, J. C. Hubbard, M.D., 714; myomata of, displacements, etc., see *Progress in Gynecology*, Stephen Rushmore, M.D., 277, 320.

V

- Vaccination** and smallpox, George W. Gay, M.D., 500; smallpox and anti-vaccination legislation, 514.
- Vacuum** flushing leech, Herbert Spencer White, M.D., 56.
- Vasomotor Disturbances**, preliminary notes on skin reactions excited by various bacterial proteids in, J. L. Goodale, M.D., 223.
- Veneral Disease**, free Wassermann tests for, 63; (See *Syphilis and Gonorrhea*); new views on an ancient problem, 725.

- Venesection** as a therapeutic measure, Charles H. Lawrence, Jr., M.D., 263.
- Visceroptosis**, the incidence of, I. H. Levy, M.D., and J. L. Kantor, M.D., 534.
- Vitamines**, In bread, 381.
- Valvo-Vaginitis**, the prevention of, 769.

W

- War Hospital**, Experiences in a base hospital in France (Abstract), 432.
- Wassermann** tests free, 63; the occurrence of the Wassermann reaction among hospital patients, Albert A. Hornor, M.D., 194.
- White**, Doctor James Clarke, 63.
- Workmen's Compensation**, The injured employee and the Workmen's Compensation law. Results of impartial examinations, Francis D. Donoghue, M.D., 78; an important legal decision, 292, 359; a new phase, 622; decision of the supreme judicial court of Massachusetts in the Pecott case, April 12, 1916, 631.

X

- X-Ray** in gynecological diagnosis, see *Progress in Gynecology*, Stephen Rushmore, M.D., 324. (See *Roentgen Ray*.)

Y

- Yale-in-China**, annual report, 329.
- Yellow fever**, An intimate account of a great medical discovery, 60.
